CHICAGO, May 31 .- [By the Associated Press. | A large number of politicians were in the city today on their way to Minneapolis. Chairman Clarkson's party arrived this evening and the chairman at once locked himself in with several national committeemen. Congressman Allen of Michigan, an Alger advocate, was also there, and the conference lasted a long time. Allen's presence gave rise to a rumor that final arrangements were being made to spring a Blaine-Alger ticket. No arrangements were made tonight in regard to temporary chairman and Clarkson denied that there will be any official conference till after his arrival in Minneapolis.

This convention is a halt on the march to the National Democratic Convention at Chicago of an army of 200,000 New York Democrats and of as many more enlisted sympathizers. They go to wage war against their disfranchisement in that con-vention by leaders who have made crafty against their disfranchisement in that convention by leaders who have made crafty use of party machinery for personal ends, and who have overridden the time-honored customs and usages of the Democratic party. We claim under these usages our right to insist at Chicago that the call for and manipulation of the February convention was an abuse of trust and a violation of Democratic rights in this State: that its proceedings then misrepresented a large element of disfranchised Democrats, and now misrepresent an overwhelming sentiment which has since grown to vast proportions throughout the State. If our strength did not lie in the will of the people, the sun would shine at midnight before the loyal Democratic rank and file of this State would don the garb of contestants and give this cause its unprecedented growth and its clearly marked intensity of purpose, The people, neither disciplined, led nor organized, are in this movement. That is its ed, are in this movement. That is its strength.

out the best way they could. The con-nuctor and gripman put on the brakes and abandoned their posts in haste. When the smoke of battle cleared away two dead Chinamen were found and one shot through the thigh. How many others were wounded and got away is not known, and it may be more were killed.

one gang did its shooting from a bal-cony. One man, a peaceable cigar-maker, who has a wife and two little girls, was shot while in his own place of giris, was show which in so win place of bis wife. The police have arrested seven Chinamen, all of whom were armed with big pistols, and several of the weapons had recently been discharged. The wonder is that a number of white men were not killed. There is great indignation among the white citizens over such an outrage.

POOR SARAH ALTHEA.

Her Health Improves, but She Grows More Crazy Daily. STOCKTON, May 31.—[By the Asso-ciated Press.] Mrs. Sarah Althea Terry is said by the asylum doctors to be im proving physically, but is growing worse mentally. She was moved a few days ago to the ward in the rear of the asylum building on account of her noisiness. She spends most of her time talking about spiritual communications, and sings a great deal. She is allowed to go out in the yard with others. She is careless about her personal appear-ance. Her hair is usually disheveled and her clothes disarranged

The Kern River Drowning Cases. BAKERSFIELD, May 31 .- The body of Charles E. Jewett, who was drowned yesterday in attempting to rescue the two Greenville boys in Kern River, was found last night lodged in the roots of a tree on an island two-miles below the mouth of the cañon. His head was mashed into a jelly, his body was ter-ribly bruised and an arm and leg were broken. He is now lying in the morgue waiting the arrival of relatives. Over 100 people are still out search-

ing along the river for the remains of the two boys, but thus far not a trace of them has been found. The river still continues very high. with her 2 stories of large, sunny rooms, complete imodern facilities, who or what shall hinder my decking her in royal purple, and setting her among the stars? I will do! it in good time (don't let this fact escape your memory.) It will take weeks to large the stars of the start search will make her my forces to my mand, but, poco tiempo, when so done I will make her the pride of Angelenos, and her owners, and the "Mecca" for the cream of Southern California. I don't deal in glittering platitudes, but words of truth and but my start with the man who made \$10,000-\$5000 by minding his own business, and \$5000 by letting other people's alone.

I am very respectfully.

POLICE COMMISSIONERS. and Transferred-Summer Vacation.
The Police Commissioners met at 2

'clock yesterday afternoon with Com misioner Snyder in the chair. On the recommendation of the Chief of Police the transfer of the saloon license of the Golden Gate saloon was granted from Theo Timm to Bester. The application of Henry Merlo for saloon license was referred to the

chief. The application of Bert Kearney for a transfer of the saloon license at No. 166 North Main street was referred to the chief, as was also the transfer of the saloon license from F. Sonberg to J. P.

The application of Albert P. Butler to be a special policeman was referred to the chief.

the chief.

A lengthy petition signed by citizens, asking that the police officers be given a ten days' vacation during the summer was read.

On motion of Commissioner Mackay a committee consisting of Commissioners Lewis and Mackay were appointed to wait on the Council and ask that body to allow the commissions the right to allow the commissions the right to ap-point ten specials so that ten regulars may be given a leave of absence for ten days, until the whole force had been

given a vacation. Commissioner Lewis stated that the Commissioner Lewis stated that the board cannot think of granting officers leave of absence, unless specials can be appointed to fill the vacancies, for the reason that the force is not sufficiently large at the present time to properly guard thecity,
Commissioner Snyder thinks that the
department will do better work if the
men are given a vacation.
On motion it was decided that the

whole board call on the Council. Mr. Shatto moved that the police be instructed to notify all saloon-keepers that if their saloons are kept open on Sunday or after 12 o'clock at night then their licenses will be revoked. Clerk Robinson explained to the com-

nissioner that under the law the saloon

meshorer that under the law the saloon men have a perfect right to keep their doors open, but the law prohibits the selling or giving away of liquor. Commissioner Shatto stated that he wanted the saloons closed on Sunday and he insisted that he wants the ofand he insisted that he wants the of-ficers instructed to keep watch and re-port every saloon-keeper who keeps open and sells liquor. He then moved that on proper evidence the board re-voke all saloon licenses when saloons are kept open and that the police de-partment notify all saloon-keepers of this motion.

Changes in Arrangement of the Southern Pacific Divisions.

Rumors Concerning the Coast Line to Santa Barbara.

A Santa Fe Special Train Runs to

Examination — Heavy Eastbound Travel-Local and Personal Mention,

Some important and significant rumors are gaining currency regarding Southern Pacific intentions in Southern California. One of these rumors, which is strengthened by the presence in this city of Harry LaMont, right-of-way agent for the company, is to the effect that the Southern Pacific will proceed at once to add to the mileage of the system in this section. The scheme of the railroad company to extend the present Santa Monica line from the present Santa Monica line from the terminus at the cañon up along the coast to Santa Barbara was exclusively explained in The Times when the Santa Monica extension project first became public. It is now said that the project as then outlined will be immediately pushed to its completion as soon as the right-of-way matters, surveys and details of construction are completed. This accomplished, together with the completion of the coast line now in progress of construction coast line now in progress of construc-tion, will give the Southern Pacific a coast line now in progress of construction, will give the Southern Pacific a road between Los Angeles and San Francisco that will not only be an improvement on the present line but for tourist travel will be unsurpassed. It is suspected that this is not the only building the Southern Pacific will do in this section in the immediate future to necessitate the acquisition of right-of-way and other privileges. The most startling rumor of all is that the Southern Pacific will abandon the wharf project at Santa Monica, as it has been shown by repeated surveys that the bottom of the ocean at that point is of hard rock, a material which will prevent the driving of piles for the breakwater, in which case no safe anchorage could be provided. The question of a wharf and harbof at Santa Monica does not necessarily effect the project of building to Santa Barbara-along the coast, which will be pushed through.

IMPORTANT DIVISION CHANGES. The Southern Pacific announces that with the inauguration of new schedules and rules on July 1 a number of changes in the divisions of the Pacific Coast sys-tem will be effective. The Woodland, Oregon and Placerville divisions will be oregon and pracervine divisions will be included in the general head of the Sacramento division. The name of the Los Angeles division will be changed to the Mojave division and the line of the system now known as the Yuma division will be known as the Los Angeles division. The Gila division will be known henceforth as the Yuma division. The henceforth as the Yuma division Stockton division will be called the San

Joaquin division. SCRAP HEAP.

A big Phillips excursion to run over the Rock Island started eastward yesterday. There were sixty-four passengers in the party. General Manager Wade, Supt. Beamer

and Assistant General Passenger Agent Gregory, of the Southern California lines, went by special train over the new line to Santa Monica yesterday. Assistant Superintendent J. A. Muir nforms all employés on his division that they must appear before him between the 5th and 29th of June to be exam-

ined in the new book of rules. Those who fail to pass examination or do not appear will be suspended.

THE BOSTON VISITORS. Arrival of the Distinguished Party Yesterday Afternoon.
The Boston city officials, who left the Hub" three weeks ago for a flying visit to the Coast, reached this city

from the North at 8 o'clock yesterday afternoon, and were driven to the The party consists of John H. Lee, chairman of the Board of Aldermen; David F. Barry, president of the Com-mon Council; John M. Galvin, City mittees; Alvah H. Peters, City Messenger; Harry H. Osborn, Assistant Messenger, and Aldermen John H. Sullivan, Thos F. Keenan, Thomas W. Flood, John F. Dever, Michael J. Mitchell, Jacob Fottler, Edward J. Leary and Otis Eddy. Timothy J. Brinnin, of the Boston Ad

vertiser, is also one of the party.
All of the gentlemen are prominent
business men and Mr. Lee is one of the
largest stockholders in the Boston Mayor Hazard and the following committee from the Chamber of Commerce met the party at the hotel and wel-comed them to the city: John F. Hum-phreys, J. M. Riley, G. G. Johnson, E. L. Blanchard, R. H. Brown, George Mc-Alaster, L. N. Reed, B. Sens, H. Silver, L. Kened,

Alaster, D. N. Reed, B. Sens, In Street, J. Kenealy.

Last evening the Mayor and the Chamber of Commerce committee met the members of the City Council in the Council chamber at 7:30 o'clock and filed down to the Westminster, where

the Los Angeles law makers were duly presented to the Boston solons by Mayor Hazard.

The introduction being over, the Mayor made one of his characteristic speeches of welcome, and introduced speeches of velcome, and introduced Chairman Humphreys of the chamber's committee. Mr. Humphreys made a few remarks and invited the guests to visit the chamber at once and to join his committee and the city officials in 1

visit the chamber at once and to join his committee and the city officials in a drive about the city this morning.

Chairman Lee responded, and stated that he is sorry that his party are pressed for time, as they would like very much to see more of Southern California, as they will have to leave at noon today for Boston.

The party then adjourned to the Chamber of Commerce, where an informal reception had been prepared by Supt. Wiggins.

The guests spent an hour examining the exhibits, and were then escorted to the banqueting hall where all the fruits of the season and a number of brands of native wine were set before the party.

An hour or two was spent in this room, and the visitors were escorted back to their hotel.

This morning at 9 o'clock a drive will be taken about the city, and the Aldermen will start for their far Eastern home.

One of the curiosities of the flower how last week was an "Iceland poppy," ten inches in diameter, deep red marked with black, which was grown by Mrs. A. Dowd of Menlo Park from seed procured from some Eastern seeds-man.—[Exchange.

rein large supply and prices are very weak. Currants and apricots are also lower.

The dried fruit market is without change from last week.

The vegetable market is fairly active, but the tendency is for lower values for all varieties. Asparagus is particularly weak. Supplies are heavy and the quality too poor to afford canneries any chance to relieve the market. Rhubarb is in light receipts and therefore higher.

The market for dairy produce shows no improvement.

The Fifty-second Congress (Democratic) has appropriated \$486, 000,000, and is not done yet. As econhospital for the especial benefit of the omists the Democrats are more given to deficits than surpluses.

THE man for second place on the Re publican ticket does not seem to come into prominence as rapidly as one would think appropriate, considering the vast interest that is centering on the subject. However, "Blaine and McKinley" seems to strike us as the appropriate and satisfactory slogan.

THE Arizona Republican takes this forcible method of intimating that "charity begins at home":

It is true the Zulu has a soul to be saved, and the Russian a belly to be filled, but so has the Ameridan flood sufferer and the child of the slums whose only knowledge of Christ is gained by hearing the source. Thrist is gained by hearing the sacred name profaned by its brutish parents.

THE Chicago Herald (Democratic) has the frankness to say:

the frankness to say:

The Democrats cannot find in the East a
man to beat Blaine even if Republican accessions shall increase their vote throughout the country. Democratic faction loss
in New York, if a New York man be nominated, cannot this year be repaired by Republican gains.

THE Washington correspondence of the Chicago Herald (Dem.) contains annually for his living expenses, in some "hot stuff" about the undoubted quarrel between the respective cohorts of Harrison and Blaine. No less an authority than Vice-President Morton (not named, however,) is quoted to substantiate the charges which are being circulated by the Administration to break down the dangerous popularity of the Secretary of State.

In describing a wharf meeting re cently held at Long Beach the Breaker of that place says:

The enthusiasm manifested was 1500 feet long, 60 feet front in deep water and red hot from start to finish, with encouraging remarks from abroad.

Of course this is to be taken as strictly figurative. It suggests the peals strongly to the best impulses of figure of a foreman misplacing a line the enlightened, the charitable, the huand an editor swearing at him after the mane people who deminate, thank God! paper has gone to press.

THE San Francisco Examiner thinks that "Harrison is the man for the cour," and predicts his nomination at Minmeapolis, but in reaching this conclusion it makes a mighty low estimate of the honesty and manliness of the Republican party. In other words, it popular subscription be started. Let thinks that Blaine is too much of a' statesman, and too strong a character o receive such an honor at the hands of a party of boodlers and self-seekers. It is just possible that the Examiner floes the Republican party an injustice. Blaine is very likely to be the standard bearer, and in selecting him the party ould honor itself no less than the man Pits choice.

"WHAT is it that makes Blaine so strong-that keeps his popularity alive so long?" was a question propounded under whose patronage the fight was held got in for £2 10s (about to Chairman Clarkson of the National Republican Committee. The answer

was as follows:

Don't ask me; go look in the human heart for your answer. Blaine is in the American rather than in the Republican heart today. National admiration and pride in him, increasing constantly for twenty years, has given him far more than political position in the estimation of his countrymen. Every American boy at school is proud of Blaine; every American at home or abroad is proud of him. If he should die tomorrow every paper in the land, irrespective of party, would say it, was a pity he had never been President. Thus he is far stronger than ais party. In the South he is popular. The people there have the American admiration for him; and, besides, they believe that in the fertility and greatness of his statesmanship he could devise a new settlement of the southern question, just alike to both sides, just as with reciprocity he renewed the failing strength of protection. was as follows:

is the record of the grand climax. We A MENACE TO THE NATION quote from the report:

quote from the report:

Jackson is not a savage fighter (as such things go.) and when in the tenth round, though blind and dazed. Stavin pluckly declined to lie down and admit defeat, but held up his gory head to 'receive blow afterblow, Jackson in a helpless, dogged manner stopped and looked around as much as to say, "Have not I done enough?" His adherents warned him to continue his blows, and again they were rained upon the denseless man before him. Slavin swayed feebly, stood up again, but finally, in response to a terrific blow, sank in a heap on the floor. sponse to a terrific blow, sank in a heap on the floor.

This recalls the savagery of the glad-

Shall such demoralizing spectacles be onger tolerated in a Christian nation under the sanction of law and public approbation? We have abolished the whipping-post and the slave block as disgraces to our civilization; let us next abolish the prize-ring as an equal dis grace and a greater infamy.

As to my Lord Lonsdale and the duke

and earls and marquises and baronets and non-titled aristocrats in profusion who assembled to lend the atmosphere of respectability to such an affair we have a word to say. These men represent the class who first made prize fighting popular and profitable, we will not say respectable. It was the Marquis of Queensberry who devoted the most notable effort of his life to formulating rules for the government of the prize-ring, and whose name will be handed down to posterity in that connection. It was the English aristoc racy who promoted the Heenan and Savers fight and thus spread the illbegotten craze in America. These are the scions of English nobility-"degenerate sons of illustrious sires" represent all the corruptions of wealth, arrogance, idleness and vicious pro pensities. These are the men of ab normal appetites and tastes who, when they do not amuse themselves with the more heroic brutalities of the prizering, are passing their time with the yet more heinous brutalities exposed by

the Pall Mall Gazette. They are not above buying young girls from the ranks of the poorer classes upon whom they satiate their bestial lust. These are the men who date their titles and estates back to the time of the robber barons, and whose lines of descent have been signalized by robbery and maltreatment of the common peo ple ever since. For some time this organization has been getting on very peacefully, but there is now another rupture, and as a result, two of its members were summarily expelled vesterday-Mrs. M. Wilson and Mrs. E. It now transpires that when Mrs. Wilson demanded \$45 for her services the ladies waved for her services the ladies waxed wroth and refused to pay it, whereupon it is charged that Mrs. Wilson and her daughter threatened to destroy the innocent worms in cold blood. A policeman was called in to quell the riot, so the story goes, and at length peace (or war) was declared, resulting in the paring over of the cosh and the disother in the most approved fashion until one of them was rendered helpiess and half dead. By Telegraph to The Times.

Washington, May 31.—[By the Asso clated Press. | Senator Hiscock today memorial signed by Elihu Root, Horace Porter, Joseph M. Drexel. Cornelius Bliss and others, without regard to political affiliations, asking tha a committee be appointed to inquire into the system of naturalization in New York city, to the end that remedia legislation may be devised and enacted with reference thereto. They set forth that the immigration records show that in 1891 over 200,000 foreigners came to this country from Europe, but a small proportion of whom can either read, write or speak the English language, and they are wholly ignorant of our laws and the principles of our Gov-ernment; that there seems reason to believe that immediately prior to the last election in New York State naturalizations were accompanied by great irregularities and extensive frauds single court in New York during the first twenty days in October there were nearly 7000 naturalizations, of which

about 6000 were by one judge.
"It is obvious," says the memorial,
"that a system of naturalization which can produce results with such startling rapidity must be defective and there is ion to believe that the results were the possible by wholesale perjury se evil practices are constantly adding a most undesirable element our community by the surrender of a material part of our power of self-government to men who are really govern themselves or us.

BLAINE WAS NOT THERE.

His Absence from a Cabinet Meetin WASHINGTON, May 81 .- [By the Asso ciated Press. The Cabinet meeting to day was attended by all members except Secretaries Blaine, Elkins and Foster The two last named are out of the city At the State Department it was said that Blaine's failure to attend was probably due to the fact that he was busy at the department with matters accumulated during his visit to New York. At the White House no significance whatever was attached to th absence, for the stated reason that it was not generally known that the Pre-ident had returned to the city, and also because no notice was given that there because no notice was given that ther would be a meeting. It was said fur ther that there was no formal meeting It was also said that the reason no Cab inet meeting was called was that the President was fatigued after his trip to Rochester and had no important mat-ters to present for consideration. The foregoing statements were not volunteered, but were made in answer to in quiries as to the probable cause of Blaine's failure to attend what was erroneously supposed to have been a regularly called meeting of the Cabinet

FIFTY-SECOND CONGRESS.

WASHINGTON, May 31 .- | B the Asso ciated Press. | Senate. - In the Senate the calendar was laid aside at 2 o'clock and the bill to provide for the free coinage of gold and silver was taken up. There were then present about a dozen Senators on each side of the chamber. Mr. Sherman had been in his seat the preceding half hour waiting for the bill to be taken up. Messrs. Teller and Stewart were also present in frequent consultation. Mr. Sherman said he did not regard

the silver bill as a partisan or political measure, but largely a local measure, and that there was no question comand that there was no question com-pared with it in the importance of its effects on the business interests of the country. He went on to defend the financial action of the Republican party and his own part in it. In a passing allusion to the national banking system Mr. Sherman said that those banks would soon pass away, not because the were not the best banks in the world, but because the United States bonds on which they rested would be paid off. He insisted that the system fully justified itself. He said that the discontinuation of the coinage of the discontinuation of the coinage of silver dollars in 1873 and the substitution of the trade dollar were made upo the representations of California and other silver States, which wanted to transport silver to China. The only trouble about the law was that Senatrouble about the law was that Sena-tors could not see ahead. If it had been known that silver was going to fall as rapidly as it did he would have kept the silver dollar and put it on the same footing as fractional silver. The suspension of silver coinage by the Latin Union and the increase in the produc-tion had given great blows to silver. It was not true that he was unfriendly to

silver. Mr. Sherman then went on to de nounce the bill under consideration as wrong in principle, in detail, in every respect, as a fraud on the credit or a de-ception to the debtor and a demonitizaception to the debtor and a demonitiza-tion of gold. The very threat of free coinage, he said, was doing more than anything else to disturb the business interests of the country.

At this point Mr. Sherman yielded to a motion to adjourn.

An Island Conspiracy Comes to Sudden Ending.

Arrest of the Leaders on Charges of Tres son—The Deposition of Queen Lili-uokalani the Object of the Conspirators.

Honolulu, May 24, via San Francisco May 31 .- [By the Associated Press.] Again the capital city of the paradise of the Pacific is aroused. The present prevailing excitement is caused by the of twenty persons charged with the crime of treason against the Hawaiian government. The persons arrested are. from information received by Marshal Wilson, members of the Hawaiian Protective Association, and have for their object the overthrow of the existing form of government by deposing Queen Liliuokalani and establishing a Ha-

waiian republic.

The leaders of the movement derstood to be Volney V. Ashford, the only white man arrested, a well-known agitator, and Robert W. Wilcox, whose character as an agitator and revolutionist is well known. These two were arrested, as were also George Markham, George Maxwell, Alexander Smith and Lot Lane, all of whom took part in the cmeute in 1889. Markham was then wounded severely and Lane and Smith were of the band which succumbed were of the hand which succumbed with Wilcox when dynamite bombs shattered the royal bungalow, where they had taken refuge. The rest of the party are Hawaiians previously unknown to fame.

News that the arrests were to be made had been prevalent for some days and those informed judged that action would be taken on the occasion of the meeting of a Hawaiian branch of the Liberal party held on the evening of the 19th inst. On that night some 300 Hawaiians met under the presidency of Hon. J. E. Bushland. Resolutions were Hon. J. E. Bushland. Resolutions were passed unanimously setting forth that the time of legislative work is rapidly approaching and it is necessary that the people should now express openly their views on the situation of the coun-try and formulate the policy that they expect their representatives to carry out in the forthcoming legislature. The condition of public affairs in Hawaii was declared to be not satisfactory to the native Hawaiian people by reason of their disfranchisement through the revolutionary constitution of 1887, by reason of the apparent determination of those at present in authority to perpet-nate this disfranchisement, and also by of the courts, and "conspicuous and or fensive appearance of an ignorant Tawaif as a power behind the Marshal Wilson, to whom the Liberals have given the nickname of "King Dol-

at this juncture, which was read as follows:

To the honorable the Cuy Council of the city of Los Angeles—Gentlemen: I notice in a report of the proceedings of your honorable body at its meeting, May 24, that a proposition was submitted by R. G. Lunt to piace the balance of funding bonds of the city, \$320,000. at par, less 2 per cent. commission to be paid him for placing said bonds, provided bonds are changed to read "in gold coin," and interest is made payable semi-annually. Permit me to say that in justice to yourselves, as well as the tax-payers of the city, you should readvertise the sale of said bonds after they have been changed as above indicated. However, if you do not feel like doing so, I offer to take \$100,000 of the new issue at par, without any allowance for commissions, provided my attorneys, upon examination thereof, pronounce the new issue of said bonds valid. I think there will be no trouble in placing all of said bonds, where interest is payable semi-annually, at par. If such is the case it certainly seems that the city should not lose some \$6400 commissions.

An Instructive and Entertaining Lecture by Prof. Kellogg.

Practical Talk Explaining the Nature of University Extension and the Ben-efits to Be Derived from it— Those Present.

A large audience gathered at the Unity Church last evening to listen to President Kellogg, of the State University at Berkeley, who gave a practical talk on University extension. This subject has been agitated for some time in Los Angeles, and a large number of people inclined in that direction have decisive steps taken toward organizing a course of lectures on that basis in this city. Among the prominent educators present last evening were Prof. Ira More and Prof. C. E. Hutton, of the State Normal school; Prof. Will S. Monroe of Pasadena, Supt. Friesner, Assistant Superintendent Baker, Dr. Kierulff, president Board of Education, Dr. and Mrs. Widney, Prof. Lunt, Prof. George R. Crow, A. H. Judson, Judge Van Dyke, C. P. Dorland, the members of the library staff, a large number of the public school teachers and promi-nent citizens.

Prof. Kellogg's address was in the

form of a practical talk, explaining the nature of this university extension which has become such a feature of popular education throughout both the old and new world. Beginning in England, it has reached across the sea and swept over the land with wonderful rapidity and marvelous success. An effort has been made during the past year to introduce university extension in California, and professors from Berkeley have delivered series of lectures on Shakespeare, mediaval history and mathematics in San Francisco with and mathematics in San Francisco wit great success and to constantly increasing numbers. President Kellogg paid a high tribute to the Chautauqua course of study, inaugurated by Chancellor Vincent (now Bishop) and his coadjutors, which has done so much to spread abroad this idea of the extension system giving a heart in that direction and

tem, giving a bent in that direction and awakening an appetite for knowledge among the masses. Coming down to practical suggestions, he made a proposition that, if a sufficient number in Los Angeles were interested in this enterprise, the professor of history from Berkeley would doubtless come down during his summer vacation, which begins about July 1, and companies a series of lectures on and commence a series of lectures of and commence a series of lectures on history, returning at a later date and completing the course. Under the present gratuitous system the lecturer receives no emolument for his instruction, but other necessary expenses would, of course, have to be met by individual fees from the members.

used by the speaker in presenting the matter of university extension and also referred to the recent address given by President Eliot of Harvard at the reception tendered him in this city, as furnishing another striking illustration of the fact another striking illustration of the fact that the leading educators of the pres-ent age use the simple, strong, racy anglo-Saxon speech, "The days of the Websters are gone-forever, thank God," he continued, "and the age of the Bible opening of Hoff, Sixth and Sixteenth streets were read and filed,

The usual motions were made and referred to the proper committees, and the regular requisitions approved.

The Cross contract for the aprinkling pure English speech is here."

Comparing the wonderful difference in this respect between John Bright and Mr. Gladstone, he remarked:
"If Gladstone had used the simple, di-

rect, strong language of pure English speech, he might have been Premier of England today."

Dr. Thomson has had wide experience in both English and American university work. Before coming to this Coast had been approved, the Council adjourned.

To write an advertisement with a little ginger in it without treading on some one's toes; big-toed people kick the hardest. The advertisements of this house are being very largely read by competitors and by the public. Some think closing Saturday night is wrong because it hurts tradewe think it right because we know it benefits trade. Some think it bad policy to grant vacations on full pay; they say: "Look what it costs;" we say: "Look at the benefit to be derived." It is the way you look at a thing. Yesterday a gentleman, and, by the way, a minister, was circulating a petition asking the Council to grant the policemen of this city short vacations on full pay; the name of the writer of this went down on that paper quicker than you could say "Jack Robinson." "Them's our sentiments to a 't'-give them a vacation and pay them for it; they deserve it; every one of the policemen has a soul as big as a meeting-house; take their clubs away from them for a week and feed them on fresh air." Taking goods back and refunding money shows you that we are not afraid of comparisons. Good treatment, affable and polite salespeople. Trade more than one-third larger than a year ago; it creates confidence, and why not? (There is no copyright on this "why not;" it's like singing Annie Rooney—the more you sing it the better Annie becomes known.) Talk about us; if you can't say something good say something bad, not too bad, but just bad enough; keep our name before the public, make it town talk how Sheward is conducting his business-taking goods back and refunding money-closing Saturday nights—giving a full week's vacation to every employee and paying them for it—giving samples freely-showing goods freely-donating liberally to char-Tell them all this and then say what you please, but talk, get up on the fence and holler, and when you get through go and join the Citizens' Water Company, or what is better, go off and die. But before you die say a good word for our new way. The trade of this house is very largely increasing, and why not?

As soon as the detectives landed their fish in Chief Glass's office they stripped him and found his outfit. In one pocket was a slouch hat containing a mask attached to the lining so that it could be dropped down at a moment's warning. It is a most ingenious affair, but a man in the burglary trade is a chump to carry it around when on Sunday dress parade. In another pocket was found a lot of small wax candles that are used on Christmas trees and a bunch of skeleton keys.

These candles are used for two purposes. When the burglars wish to enter a house through a window they hold the burning candle against the pane until the glass grows hot, when a wet cloth is placed against it and the glass cracks without making any noise, and the thief has no trouble in placing his arm through the window and unfastening the latch. The rascals then use the candles to light themselves through the house, and this accounts for the drippings on the carpet in several houses that were burglarized. Old burglars never use candles. A dark lantern is much safer, and they know too much to hold a lighted candle to a window so that the immates can see them solving. that the inmates can see them plainly, and also a stray policeman who might be passing at the time. A dark lantern covers the person behind it with a shadow as black as midnight, while he

many miles from Los Angeles.
Saturday night Reze entered Mr.
Metzer's residence at No. 1214 South
Hill street and succeeded in getting
away with several overcoats and a gold
watch. The watch and six overcoats
were found in Reze's room and were laken to the central station, where they were identified by the owners. Several other articles of small value that have been stolen during the past ten days have been identified, showing that Reze and bis arm are the second by and his gang are the scamps that have been doing all the rascality in the southern part of the city. He has refused to make any statement so far, other than that he has been alone and has no "pals" in the city.

The detectives are of the opinion that

there was at least one other man with leze when he entered Metzer's house Saturday night, but they have failed to get any trace of him, and if there is such a person he has managed to make good his escape.

Reze is a young man of good appearance and dresses in the latest style. It is not believed that he has been in the city long and he probably joined the gang of boy burglars when the old Frenchman was robbed.

DAVIS, THE PICKPOCKET.

He Was Captured in Denver Yesterday Morning While at His Old Tricks. The recapture of C. D. Davis, one of

the smoothest pickpockets in the United States, who was captured in this city a few months since by Chief Glass, was the main topic of conversation in official circles vésterday.

Early yesterday morning Davis was Denver. Colo., by a depot officer. Davis was in the act of picking an old man's pocket. As soon as the fellow was safely ledged in jail the following disarrested at the Union Pacific depot at gang.

was in the act of picking an old man's pocket. As soon as the fellow was safely lodged in jail the fellowing dispatch was sent to the Sheriff of this county:

To E. D. Gibson, Sherif. Los Angeles: We attested C. H. Davis, alias James Dorsey, for pocket picking. Has C. D. on left arm. Do you want him?

N. TRUFANT.

Sheriff Gibson was firmly convinced that the Denver officials had captured the man who gave him the slip just after he had been sentenced to two years in the State's prison, but to make sure he at once telegraphed to one of Pinkerton's men in Denver, who is acquainted with Davis, and asked him to go to the jail and identify the fellow.

In a few hours a reply to the effect that Davis is the man wanted in this

city was received, and today the Sheriff will start for Denver and will bring

Davis has been arrested twice in Los Angeles. The first time be was arrested in the act of picking a pocket in a crowded train at the Southern Pacific depot in this city and was released on \$600 cash bail. As soon as he was released he left the city and did not show up again for about a year. He had only been in the city an hour or two when Chief Glass spotted him on the street and placed him under arrest. Subsequent developments showed that Davis was not idle even during his few hours of freedom in the city, for on his way from the depot to a downtown hotel he picked a lady's pocket and got away with a \$5 piece. The act was witnessed by a conductor on the street car, and on his evidence Davis was tried and convicted.

The courtroom was crowded with people when sentence was passed on Davis and as the Court's voice died.

while Chief Glass and Detectives Bosqui, Auble and Benson have had but little to say about burglars and sneakthieves during the past ten days, they have not been idle. In fact they have worked harder than they ever did before, and yesterday morning at an early hour they were rewarded.

They captured one of the gang, who gives his name as John Reze, and while he is not an old-time crook, he is a dangerous piece of furniture for any city to possess, unless he is behind the bars, and now that Chief Glass bas him safely landed with any amount of evidence to go on, there is no question but that it will be some years before he has another chance to burglarize a sleeping-household.

The fellow is an amateur in every sense of the word, or he never would have committed such bingiling jobs in the first place, and in the second place he never would have permitted himself to be arrested on the public highway in broad daylight with all his tools on his person.

The detectives have been on the trail

A Chinaman, Who Escaped Eight Months Ago, Again in Jall.

Last evening the Sheriff's office was notified by telegraph from San Diego of the capture of Tom Ah Way, a Chinese highbinder, wanted in this city for perjury. Way was committed to the Los Angeles County Jail last fall with two other Chinamen for perjury by the jus-tice of the peace at Pomona some sever or eight months ago. When the con stable arrived at the County Jail and the commitment was read by the Sheriff it was then discovered that one pris-oner had escaped. Search was made and the fact developed that Tom had escaped from the Pomona jail, and the constable did not discover he was a man short until he arrived at Los Angeles. It was suspected that the heathen would make his way to Chinatown, in this city, and it is thought that he has since been in hiding in this city and vicinity. A day or two ago Sheriff Gibson learned that Way would probably make an effort to get across the Mexican line, and he accordingly notified the San Diego officers to look out for him. The heathen arrived in San Diego on the noon train yesterday, and last evening Detective Russell, Constable Monahan and his deputies arrested him in Chinatown in that place. The prisoner was town in that place. The prisoner was lodged in jail at San Diego, although he tried to bribe his captors to release him, and today an officer will be sent after him. Sing, one of the Chanamen committed at the same time with Way, has been convicted and is now under has been convicted and is now under sentence of ten years' imprisonment.

ANOTHER HUGHES.

This Man Plays Policeman and Black mails Women. Rather a singular state of affairs in the blackmailing line came to light in police circles yesterdav. For some days past a fellow named Joseph Hughes, who has an ambition to become a police officer, has been working a lit-

mailed her out of \$5. He told her that a friend of hers named Fred Morrison had just been arrested by him and

be passing at the time. A dark lantern covers the person behind it with a shadow as black as midnight, while he can plainly see everything in front of him. A professional thief would rather use his nippers on a door than to monkey around a window with a lighted candle.

These reasons are sufficient to prove to the police that the gang that has been doing the work in this city are the rankest of amateurs. After searching the fellow at the station a visit was made to his room, where the dark of the station as the fellow at the station a visit was made to his room, where the dark of the lower fightened and window with a shadow of the longers named Maude Morrison, unless she gave him the money at once, so that the man could be released.

When she hesitated about handing over the money he told her that he would have to arrest another one of her lodgers named Maude Morrison, unless she gave him the money at once, so that the man could be released.

Mrs. Dupuy became frightened and nanded over the money, when the bogus officer departed. Later in the day she learned that Morrison had never been arrested and she suspected that Hughes was not an officer.

She was sent to Justice Austin, when she swore to a complaint charging Hughes with obtaining money by false pretenses. Other charges will prob-ably be preferred against the feilow.

A BOLD BOY.

He Tells a Strange Story in the Police Court. A young boy named Paul Kent created

quite a sensation in Justice Austin's department of the Police Court yesterday. He is the defendant in an assault case. The charges were preferred by a sprinkling cart driver named Rodgers, who set forth in his complaint that Kent fired a rock at him the other day while he was driving his cart.

Rodgers made a strong case against the boy and everybody was beginning to look on the youngster as a hardened criminal, when the little fellow boldly took the stand and before the court bailiff or attorney could close his mouth he succeeded in getting in some serious charges against the complaining wit-

ness.

He started off by admitting that he threw a rock at Rodgers and in a loud tone of voice continued, "And if I could tone of voice continued, "And it reduce have found a gun I would have filled him with lead. He has been tampering with little girls and ought to be killed." As this statement had nothing to do with the case he was shut off and the case was continued until today. It is a matter that will be thoroughly investi-

For a long time I have been suffering with bladder and kidney troubles. No doctoring or medicines seemed to do me good. I consulted the best physicians and surgoons in Los Angeies city. They gave me morphine and drugs, but no relief could I obtain. After suffering great pain and having my passage almost entirely clogged I, fourteen days ago, began using Dr. Woh's medicines. Today I am perfectly well. I do consider Dr. Woh the most successful physician in Southern California. C. A. STEELE, 316 and 318 S. Main st., Los Angeles, Cal. October 13, 1891.

A Special Tax or no Special Tax?

Special Meeting of the City Council Held.

Steps Taken for Completing the Sewer System.

ious Items of Local Interest Briefly Summed Up-Sunshine after Fog-People Coming and Going.

On Tuesday of next week the School Trustee election will be held. Although there are two candidates for the place-neither of whom, it should be stated, sought the honor—the campaign so far has been conducted on strictly honorable lines and has been free from the bitterness that hitherto has characterized most of the local school elections. The idea is to carry on school elections. The idea is to carry on everything open and above board, present the question in all of its bearings and then let the voter cast his ballot in accordance

the whole matter. Everything runs along smoothly until an election is called by the trustees to vote a special tax to keep the schools running for the full term. One such call is customary eac fiscal year: the present year has been distinguished by two. These matters warm up and the fight is on.

two. These matters warm up and the fight is on.

Because a special tax has been called for in the past does not prove absolutely that such a tax is necessary. One the present trustees, J. W. Wood, says that the schools have been conducted with all possible economy. Another of the trustees, W. U. Masters, says that there can be a considerable reduction in the present expenses, and that without impairing the emclency of the schools. This is a negative way of implying that they are not now economically conducted. Some believe Mrt. Masters, and the matter of economy in school management and others believe Mr. Masters, and the matter of economy in school management is the only thing that cuts a particle of a figure in the dispute. It is not a matter of retrogression. Both sides want to see the schools kept up to their present high standard and both sides know that this is what

schools kept up to their present high standard and both sides know that this is what the other side wants to do, notwithstanding assertions to the contrary by a few hotheaded enthusiasts. The question is how much can it be done for, or in other words is not some money being needlessly spent at present.

Some of the taxpayers think that there is too much money being paid out for special instructors in penmanship, music and drawing. Friends of the present management urge that such instructors are absolutely essential to good work—that the average teacher is not qualified to teach such things. The fact, however, is overlooked that most of the teachers are graduates of normal schools and that before graduating from such schools rigid examinations must be passed in these very departments. Certainly, then, a Normal school graduate should be qualified to teach penmanship, music and drawing as well as reading, writing and arithmetic, the examinations being equally comprehensive in all of these branches. If there is a crying necessity for special instructors, what need is there of schooling the ordinary teacher in studies which they are afterward not deemed qualified to teach. This is one way in which a saving might be effected.

REDLANDS.

The movement to change the location of the proposed Y.M.C.A. building is subsiding, and it is pretty certain that the site originally selected, on State street nearly opposite the present building, will be the one upon which the building will be placed. An effort was made to have the building put on Citrus avenue, nearly a block from Orange street and back of Wilshire's stables. The inducement offered was a lot at a reasonable price, with the promise that two large brick blocks would be erected at once between the Y.M.C.A. building and Orange street. But the expense of running the organization and building will be about \$2500 a year, of which about \$1500 is secured by membership fees. It will thus be necessary to raise \$1000 by other means, and it the building is put upon State street it is expected that the two business or storerooms on the ground will rent for \$50 a month each; whereas if the building is put upon Citrus avenue not more than half that rental can be counted upon. This will probably decide the matter in favor of the State street site, although there are some other matters to be considered in connection with it.

AFRAID OF BEING KIDNAPED.

A dashing country maiden of some 28 or 29 summers, hailing from the vicinity of Orange, was in a peck of trouble in this city Monday, for a short time, until she sought protection behind the big bright star of Marshal Nichols. In an unguarded moment she had promised a certain youth of her locality, yet scarcely in his teens, the esteemed privilege of hiring a buggy and taking her for a ride over some of the many beautiful drives in and around Orange on this particular day. After making the promise, some friend informed her that the young man was not exemplary in his habits and advised her not to fulfill the engagement. Fearing to face the wrath of the youngster when he would call, she hied herself to this city to drown her trouble in sightseeing. But try hard as she could, the young man was foremost in her mind. She was sure he would be furlous, and what might he not do? Would he follow her and make her fulfill her promise? That would be just like him, and thus solloquizing, she hastened to the City Marshal, and taking, him into her confidence, gave him a description of the young man and entreated him to keep a sharp lookout and arrest any one of a suspicious character, for she would be just horrid she knew.

THE COURTS

A Verdict in the Bragg Forgery Case.

Guilty as Charged, With a Recom mendation for Mercy.

Slow Progress of the Outfall Sewer Right-of-way Suit.

Case-Three Lunacy Examinations-The Chinese Perjury Trial-General Court Notes.

The trial of the famous Bragg for-gery case, which has occupied the attention of Judge Smith and a jury for the past ten days, was concluded in De-

partment One vesterday. All three of the attorneys for the de fense addressed the jury on behalf of their client during the day, and Assistant District-Attorney McComas closed the argument for the prosecution, the matter being finally submitted to the

jury at 4:45 o'clock.

The jury returned into court a few minutes after 10 o'clock with a verdict of "guilty as charged," but recommend ing the defendant to the mercy of the Court, and Monday next at 10 o'clock was set as the time for passing sentence.

CHINESE PERJURY TRIAL. The second trial of the case against Lem You, the Chinese cook charged with having committed perjury during the first trial of Wong Ark, the Chinese murderer, was commenced before Judge McKinley in Department Six yesterday morning, Deputy District Attorney Phibbs representing the prosecution and F. M. Guthrie, Esq., appearing for

the defendant.

The whole of the morning session was spent in selecting a jury, the twelve men finally chosen being: J. J. Adams, J. Ball, T. A. Caldwell, C. E. Fout, F. Gerling, O. F. Johnson, J. Langdon, T. A. McCormick, J. M. Mitchell, O. E. Roberts, C. A. Shrode and J. R. Swan-

felt.

When court convened for the afternoon Junor Orson F. Johnson was reported seriously ill and the clerk was instructed to draw another name from the box. This act, under section 1123 of the Penal Code, gave the defendant the right to as many challenges as he had originally been entitled to, and the result was that an hour and a half was result was that an hour and a half was consumed in choosing the twelfth man consumed in choosing the twelfth man. F. E. Norman was ultimately accepted, and the following witnesses were then called and examined for the prosecution: G. W. M. Reed, F. Longley, Orlando Rohn and J. J. Roper, all four merely reiterating the testimony given upon two former trials. The case then went over until this morning.

LUNACY EXAMINATIONS. Three unfortunates, two men and a young woman, were taken before Judge Clark and a commission consisting of Drs. Kannon and Moore for examination as to their mental condition yesterday

afternoon.

The first patient was a Swedish gardener, 45 years of age, named Gustav de Verdier from Monrovia, who was suffering from acute mania. He imagined that evil spirits had entered into his body, and as he threatened to burn them out he was committed to the State asylum at Stockton. State asylum at Stockton.

Guadalupe Escalosa, a Mexican. 74 years of age, from Ravenna, also imag-ined himself to be possessed, and, al-though suffering from simple dementia, it was considered advisable to commit him to the Stockton asylum for safe

the to the stockton asylum for safe keeping also.

The next case was a very sad one, the patient being Miss Mamie W. Lieppe, of Pennsylvania, 23 years of age, residing at No. 616 Well street. The physicians, after diagnosing the case, concluded that she was not permanently demented and at their request the Court continued the matter indefinitely, the patient being taken home for further treatment.

William Bellum, the old Englishman who was recently committed to the county hospital for treatment, was again taken before Judge McKinley yes-terday for examination as to his mental condition, and upon the recommendation of Drs. Cochran and Davidson, was committed to the State asylum at Ag-Bellum imagines that he is under the influence of a mythical female, who compels him, in spite of himself, to run pers min, in spite of minisci, to fun around telegraph poles and other ob-jects whenever he ventures upon the streets; and as he admitted that if this 'influence' bade him stand upon his head in a butt of water he would do it, it was considered necessary to put him

under restraint. OUTFALL SEWER SUIT.

In Department Four yesterday morning the trial of the condemnation suit ing the trial of the condemnation suit of the city to secure a right-of-way through Inglewood for the proposed outfall sewer, was resumed before Judge Van Dyke and a jury for the ninth day, the following witnesses being examined: M. L. Wicks for the defense and John F. Humphreys, Charles Silent, C. M. Wells, Dr. Norman Bridge, Dr. Granville McGowan, H. W. Mills, W. W. Howard, C. C. Lamb, W. H. Griffin.

W. Howard, C. C. Lamb, W. H. Griffin, J. H. Davisson, H. B. Stewart, W. D. Wheeler, J. T. Brown, J. A. Throop, G. J. Griffith and E. A. Miller.

THE TEMPLE STREET CASE. The trial of the Temple-street grade case was resumed before Judge Shaw in Department Five yesterday afternoon, Deputy City Clerk Luckenback and John B. Winston being examined for the plaintiff, which then rested its case. The attorneys for the defense being unable to determine as to whether or not they desired a jury to assess the damages, the matter was continued until this morning.

Court Notes

Suit was commenced in the United States Circuit Court yesterday by Carter & [Co., limited, of New York, against Benjamin F. Coulter of this city to enjoin him from infringing upon their patent duplicate memorandum or
